RE: March 2, 2007 Concurrent Projects, Kennecott Utah Copper Corporation,  
Bingham Pit, M/035/002, Task #1699, 1700, Salt Lake County, Utah

Dear Ms. White,

In letters dated January 25, 2007 and February 16, 2007, KUC provided DOGM with additional information with respect to ongoing activities at the Bingham Canyon Mine. These activities included:

- Re-Establishment of Mine Access Road and Water Pipelines within the Lower Bingham Canyon Waste Rock Dump.
- North Ore Shoot Shaft Recovery.
- Highland Boy Drainage Gallery.

As stated in the March 2, 2007 letter from the Division, these items are already discussed within the Bingham Canyon Mine 2003 Reclamation and Water Management Plan. In a meeting on February 27, 2007, KUC and the Division agreed that this information will be included as an appendix to the existing 2003 plan and at the end of the year, all changes to maps, tables and text within the 2003 plan will be compiled and submitted to the Division.

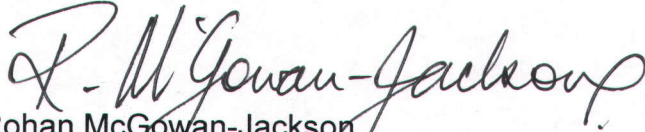

As requested, please find attached two copies of the Re-Establishment of Mine Access Road and Water Pipelines within the Lower Bingham Canyon Waste Rock Dump letter (January 25, 2007) as well as two copies of the North Ore Shoot Recovery and Highland Boy Drainage Gallery letters dated February 16, 2007.

RECEIVED  
APR 12 2007  
DIV. OF OIL, GAS & MINING

KUC thanks the Division for their assistance with this matter. Please contact me at 569-6000 or Vicky Peacey (569-7118) if you have any questions or concerns.

Kind regards,

A handwritten signature in black ink, reading "Rohan McGowan-Jackson". The signature is fluid and cursive, with the first name "Rohan" being the most prominent.
